A.N.A.C. Student Portal

Aboriginal Nurses Association of Canada (A.N.A.C.) is proud to announce the official launch of its Student Portal.

Our goal in the website enhancement is to give nursing students a space where they can work together to support each other as cyber-buddies. The student portal will be accessible and only visible to student members of A.N.A.C. The new portal will provide an opportunity for A.N.A.C. student members to share documents, resources, participate one on one chats, forums and webinars.
